D Series 6V / 12V Traction Batteries

Deep-Cycle Power for Boats & Sightseeing Vehicles

Product Description

D series 6V and 12V traction batteries offer a capacity range of 200Ah - 250Ah (5h rate) with a deep-cycle design that withstands frequent charge and discharge. They are widely used in scenic-area boats, sightseeing vehicles, tour carts, electric tricycles and sanitation sweepers. Vehicle/boat selection support, complete pack replacement and follow-up maintenance services are provided.

Key Specifications

Nominal Voltage	6V / 12V
Capacity Range (5h rate)	200Ah - 250Ah
Cycle Characteristic	Deep-cycle design for frequent charge / discharge
Typical Applications	Scenic boats, sightseeing vehicles, tour carts, electric tricycles, sweepers

Model & Dimension Table

** Weight is with electrolyte. Dimensions are maximum outline in mm. Capacity and weight of 6D200 / 6D250 per factory datasheet; other specifications on request.*
